The bid is enabled after the opening of each auction.

### 1. Bid up Auction

You can bid up from the starting price and the highest bidder becomes the successful bidder at the closure of the auction.

The current price and next bid up price are displayed on the bidding page.

If you are the highest bidder at this moment, “Crown” status sign  is displayed at the left of the Lot Number of the exhibited item.

After that, if other member bids the higher price, the crown changes to:

Then, you lose the successful bidder’s right.

“Auto-Reload” is set each 30 seconds.

If you wish to see the current price, please click “Reload” button.

And if you do not want to auto-reload, you can stop it by “OFF” switch on the “Auto-Reload” selector.

## Functions :

### Auto-Bid Function

You can set your highest limit price. The bid up continues automatically and stepwise until the price. This highest limit price is not disclosed.

### ”Buy Now” Price
